

AiBEC

Association of Insurance Building & Engineering Consultants

Products and Services Directory Proposal

Connecting suppliers with insurance professionals through AiBEC's online directory.

The Offer

This is an invitation for your organisation to showcase your products and services to engineers, building consultants and other professionals providing claims services to the insurance industry.

By advertising on the AiBEC's suppliers' portal, you will be connecting with the AiBEC Community of Insurance Professionals and the wider insurance community with information of your services and products.

Advertising on the portal will raise the awareness of your organisation's profile within the insurance claims community.

About AiBEC

The **Association of Insurance Building and Engineering Consultants (AiBEC)** has been established as a direct response to identified needs for improvement in insurance claims reporting. AiBEC is the representative body for building and engineering consultants engaging with ICA, AFCA, Insurers, Loss Adjusters, and others. AiBEC will deliver value to its members and the broader industry through four key areas of focus: Educate, Advocate, Engage and Promote.

For further extensive information about AiBEC, please see aibec.co
